

IBIZA BY TONINO LAMBORGHINI CASA

More than 15 years ago, Formitalia Luxury Group has started a pathway to produce and to distribute Tonino Lamborghini Casa collection and now this path continues irreversible and with more and more determination.

Timeless design, a combination of clear and sharp lines, dynamic forms with top quality finish, a mix of elegance and stylistic features which are inspired by the mechanical DNA of Lamborghini family.

For the 2019 Furniture Fair, the luxury collection devoted to home and office is embellished by new and vibrant pieces of furniture which keep, over the time, the distinguishing features of the brand without ignoring, however, the trends imposed by contemporary design: upholstered items with lighter lines, accessories with essential and minimal forms, sought-after materials and an almost painstaking care for each single detail. Colours play a key role, as usual, matching with an extreme elegance with neutral shades of greys and beiges or with the strict dark shades of hides or essences.

The new furniture by Tonino Lamborghini interpreter luxury with its refined personality, revealing evidently that exemplary quality and that impactful design which have always characterised the Bull brand and the lifestyle of Lamborghini family.

NEW LIVING ROOM IBIZA

IBIZA – A very versatile collection of upholstered items with an appealing design and characterised by a framework which is elegantly covered with leather, with a reclining back equipped with a manual mechanism and with metal feet with a shiny black finish.
